Subject: Re: HIPPY

.....

Thanks Jane

It is indeed remarkable the impact that knowledge and confidence can have in the right hands. The parents and children that we are inheriting from HIPPY are quite outstanding.

The training provided by HIPPY is not only achieving what it sets out to do but is motivating our parents to move way out of their comfort zones to provide leadership within the school. It is no coincidence that this month's BOT elections have yielded us new members who are bringing with them the passion for quality in their children's lives that has its roots in HIPPY.

It is an exciting time in the history of the school and the fact that our HIPPY students and their parents are fulfilling significant roles is highly evident. I am a grateful Principal!
